Licensed recruitment agencies have NZ job orders

Administrator Hans Leo J. Cacdac yesterday clarified that the POEA, in the absence of a government to government hiring agreement, is not directly recruiting workers for New Zealand.

Cacdac said interested workers may apply with the following licensed recruitment agencies which have existing jobs orders from employers in the said country:

21st Century Manpower Resources Inc.
Adana Manpower Services Corporation
Bison Management Corporation
EDI Staffbuilders International Inc.
Eligardi Enterprises
FAASI International Corporation
Filhigh-GNS Inc.
Global Resource for Outsourced Workers, Inc.

Cacdac urged licensed recruitment agencies and registered principals or employers to abide by Philippine and New Zealand laws and regulations on recruitment and employment.

He reiterated that the POEA Rules and Regulations prohibits Philippine recruiters from collecting placement fee from workers bound for “no placement fee countries” including New Zealand.

Cacdac said most openings are for carpenters, painters, plasterers, bricklayers, blocklayers, masons, electricians, welders, fabricators, plasterers and other construction workers.
