# Accessible COVID-19 vaccination status to travelers from England

The government of United Kingdom has announced that outbound travelers from England to various countries can access their COVID-19 vaccination status in digital or in paper format as proof of their status when travelling abroad.

Starting May 17, 2021, travelers exiting England, may be able to show their COVID-19 vaccination status as proof of two-doses jab of any approved vaccine through the National Health Service (NHS) App or by calling 119.

The said COVID-19 vaccination status can also be accessed online for the travelers to download or print as useful document in various countries that accept proof of vaccination.

The COVID-19 vaccines are available to all citizen in England, including migrants such as the overseas Filipino workers (OFWs), who can all access their COVID-19 vaccination status.

On the other hand, travelers with proof of vaccination are still advised to follow the health protocols of their destination country when travelling amid the pandemic. ###
