Pakistan now issues e-visas

The Pakistani Missions overseas, including the Embassy of Pakistan in Manila, has stopped the issuance of manual visa in January 2021 and has shifted to the implementation of electronic or e-visa services.

Applicants for all visa categories are advised to submit their applications through the Government of Pakistan's Online Visa System Portal at <https://visa.nadra.gov.pk/>.

Upon the approval of application, the visa applicant will receive two travel documents, including the Visa Grant Notice, and the Electronic Authorization to Travel (EAT).

The Visa Grant Notice is a document essential for visa grant application, while the EAT is a document generated under the visa application on arrival categories. The EAT is not the Visa but it merely authorizes the applicant to travel to Pakistan and request a Pakistani Visa upon arrival at the Visa in Arrival Counter of the Federal Investigation Agency.

The implementation of electronic visa services started on February 1, 2021 in compliance with the instructions of the government of Pakistan. ###
